

An Innovative Management Solution for Continuing Education

From the Past

To The Future

“In the summer of 2007, we moved from the horse and buggy era to the space age.”

Sandi Mlekuz – Vice Principal
St. Charles Adult and Continuing Education
Hamilton Wentworth Catholic District School Board

Introducing ContinuED™

ContinuED™ is a web based software solution that revolutionizes the management of summer school programs and adult and continuing education programs. This powerful management tool was developed in partnership with adult and continuing education centres for use by such centres.

Imagine:

- the elimination of long lineups for summer school.
- a significant reduction in paperwork.
- administrators and clerical staff accomplishing more in less time.
- improved service and instant communication.
- the relief of having access to real-time numbers.
- the benefit of having up to the minute reports on revenues and expenditures.

**With ContinuED™ you no longer need to imagine.
Our users know that!**

continuing education management

Testimonials From Ontario Educators About ContinuED™

“ContinuED™, a unique software package for managing adult and continuing education programs, enabled us to organize and effectively deliver our extensive array of summer school programs with an efficiency never before achieved. It is a management tool that every Con-Ed administrator should implement at their centres. The reduction in workload and stress is quite remarkable, and the ability to access real-time registration numbers is a great added value. We now look forward to implementing it for all of our Con-Ed programs.”

Sandi Mlekuz – Vice Principal
St. Charles Adult and Continuing Education
Hamilton Wentworth Catholic District School Board

“Our adult and continuing education centre serves more than 20,000 adults and school-age youth each year. Organization and delivery on that scale is an awesome challenge. This year we implemented ContinuED™, an innovative management software package, and our operation has changed dramatically. Smooth organization, stream-lined delivery, reduction in workload and stress, and significant savings are but a few of the positive results.”

Bob Goodwin – Principal
St. Charles Adult and Continuing Education
Hamilton Wentworth Catholic District School Board

ContinuED™ is an easy to use program. One of our users, describing herself as being “non-computer savvy”, claims to have mastered it in less than 20 minutes. This package comes complete with training guides for administrators, clerical staff, guidance counsellors and school principals. It also comes with outstanding service from CoreSolutions staff, who are always available for on-site training and on-going support.

Testimonials From Ontario Educators About CoreSolutions

“I have managed numerous implementations over the past 25 years, and PD Place was by far the easiest and smoothest I have ever experienced. The CoreSolutions staff was able to easily migrate our data over, saving us months worth of grief and hard work required in other migrations. I wish all implementations were like this one.”

Frank Mastronardi – (Commenting on PD Place implementation)
Supervisor of System Applications & Corporate Services, Lambton Kent District School Board
Sarnia, ON
